

# Vibration Analysis Report

Generated on: 2025-04-08 00:04:57

## Analysis Results

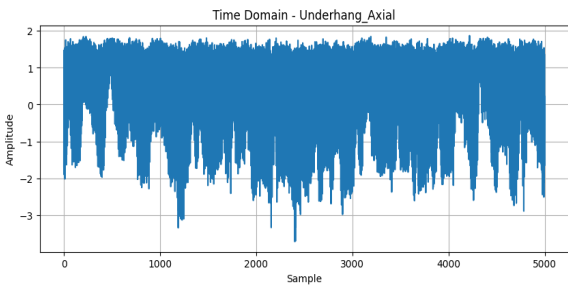

Parameter	Value
Fault Classification	normal
Fault Severity	light
Fault Area	underhang

### Summary:

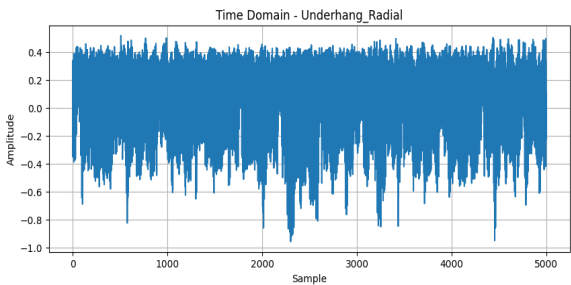

The machine is showing signs of a light fault in the normal at the underhang location.

## Time Domain Analysis

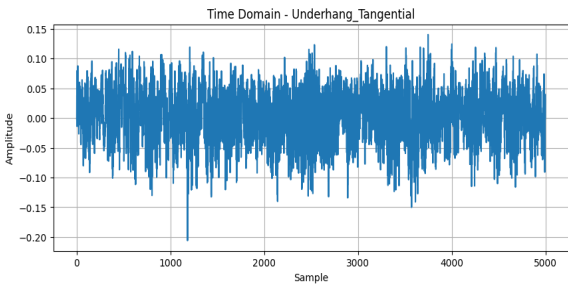

The following time domain plots show the raw vibration signals:

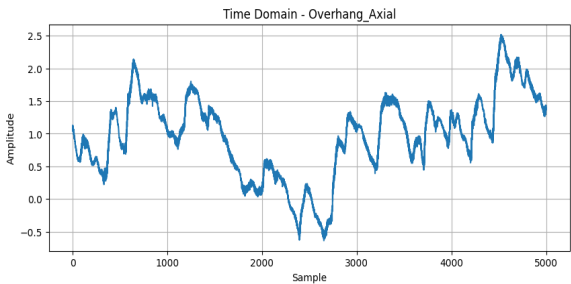

Underhang\_Axial

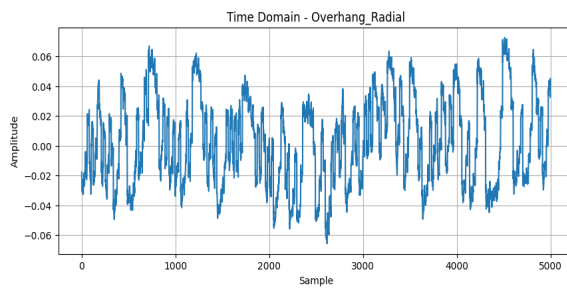

Underhang\_Radial

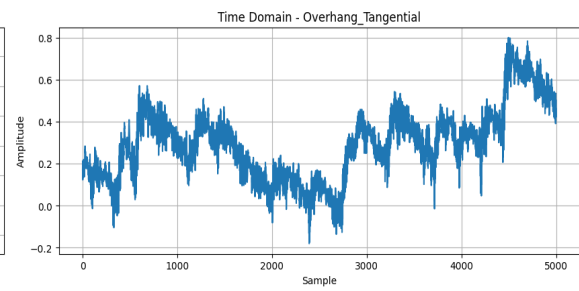

Underhang\_Tangential

Overhang\_Axial

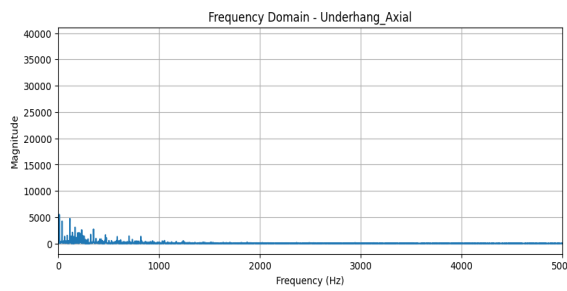

Overhang\_Radial

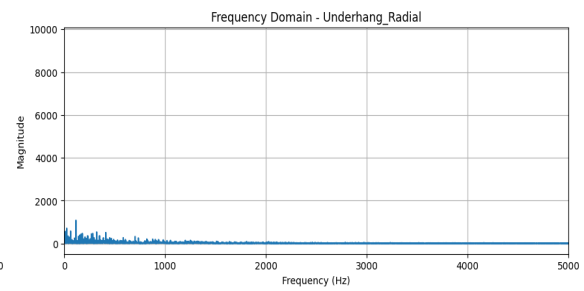

Overhang\_Tangential

## Frequency Domain Analysis

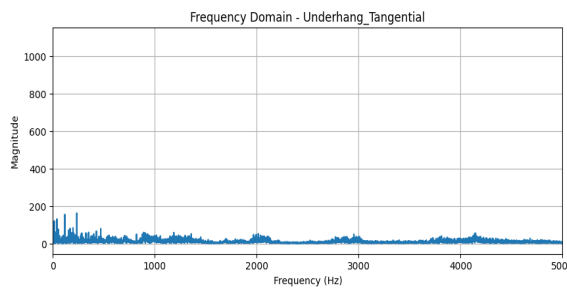

The following frequency domain plots show the frequency components of the vibration signals:

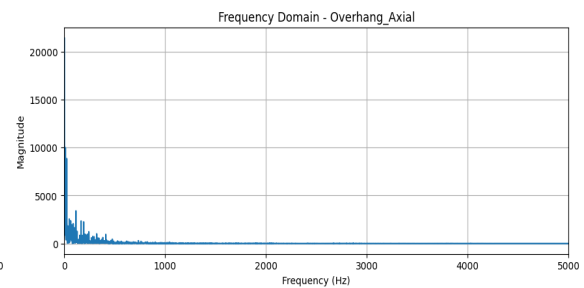

Underhang\_Axial

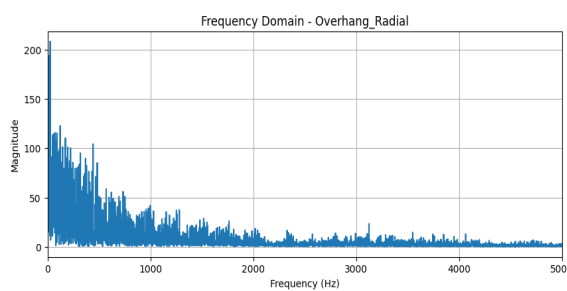

Underhang\_Radial

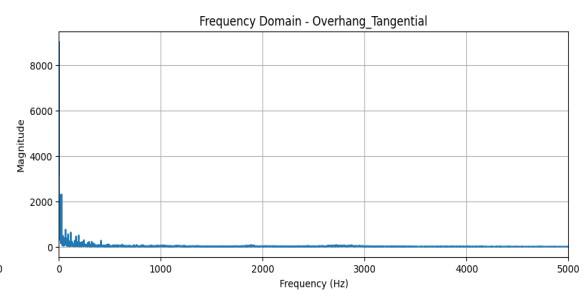

Underhang\_Tangential

Overhang\_Axial

Overhang\_Radial

Overhang\_Tangential
