

Anomaly Detection Report

Generated on: 2025-03-26 12:30:51

Vibration Data Analysis Results

Parameter	Value
Anomaly Status	No Anomaly Detected
Anomaly Ratio	0.00%
Anomaly Score	5.1558

Analysis Explanation:

The vibration data analysis indicates no significant anomalies were detected. Only 0.00% of the data segments showed potential anomalies. The system appears to be operating within expected parameters, and no further fault diagnosis is recommended.
